

## How to access Dataful through Remotlog

For off-campus access to Dataful, follow the steps below:

**Step 1:-** Select 'Remotlog Access'

The screenshot shows the Dataful website interface. At the top, the word "Dataful" is displayed. Below it, a note states: "Note: The Global Library has 10 concurrent user licenses for Dataful. Access is IP-based. If you are unable...". Under the heading "Choose Your Access Mode", there are two buttons: "In-Campus Access" and "Remotlog Access". The "Remotlog Access" button is highlighted with a red rectangular box. To the right, under "Table of Contents", there are several links: "How to access Dataful off-campus", "What is Dataful?", "Data Structure", "Sectors Covered", "How to search on 'Dataful'", "DataMaps", and "Dataful-JGU Onboarding session". Below the buttons, there is a section titled "How to access Dataful off-campus" with the text: "For off-campus access to Dataful, follow the below steps:".

**Step 2:-** Click on 'Openid login'

The screenshot shows the Global Library website's login page. At the top, there is a navigation menu with links for "Home", "Resources", "About Us", "User Manual", "Contact Us", "Login", and "Signup". Below the menu, the text "Login to access resources" is displayed. Underneath, there is a link that says "Click here for KeyCloak - Openid Login", which is highlighted with a red rectangular box.

**Step 3:-** Select 'Microsoft' from the drop-down menu and then click on 'Login with Microsoft'

The image consists of two screenshots connected by a red arrow, illustrating the login process. The first screenshot shows the "Global Library" login page with a dropdown menu for "RemotLog" that has been expanded to show "Microsoft" as the selected option. Below the dropdown, there are fields for "Enter your username" and "Password", and a green "Login" button. The second screenshot shows the same page, but the dropdown menu is now set to "Microsoft", and the "Login with Microsoft" button is highlighted with a red rectangular box.

Step 4:- Click on 'Sign in'.

Step 5: Select 'Sign in with IP'
